- Was in charge of daily, weekly and monthly engineering maintenance checklists for the proper functionality of the hotel.

Education

Federal university of agriculture abeokuta

Undergraduate (2.1) Engineering

Snippets

Training

I have trained a class of students on the basic tools required to build a basic website.

More about me

My biggest achievement is...

The planning and executing of a digital fiber optics network across an entire state.

Right now I'm learning...

More about full stack web development using the NextJS framework

I like to work with people who...

communicate and believe in teamwork and division of roles to complete the task.

Interests

soccer, table tennis, 3d community challenges, audio books, cooking
